## **SITE INSPECTION & NOTICE OF VARIATION OF LICENCE NO. 10852**

I refer to a site inspection of Boggabri Cotton Gin which holds Environment Protection Licence (EPL) 10852. This inspection was undertaken by the Environment Protection Authority (EPA) with your Environmental Health and Safety Manager Mr John Fox on 26 August 2019.

The site had recently completed ginning and was cleaned up and undergoing maintenance during the inspection. The site appeared to be clean, with environment controls appearing to be in place and operational.

During the inspection, we noted that pesticide work had been undertaken on site and that you had incomplete records of those activities. I refer you to the NSW *Pesticide Regulations 2017* s.35 and s.36 which outlines what information is required to be recorded for these activities. For more information, please see the EPA website <https://www.epa.nsw.gov.au/your-environment/pesticides>.

We are aware that a Pollution Incident Response Management Plan (PIRMP) drill takes place at your site at the beginning of the ginning season and this would be part of your annual testing procedure. We also understand that Namoi Cotton does a formal review of the PIRMP every 3 to 4 years. The requirements for PIRMPs are set out in part 5.7A of the POEO Act and details contained in a regulation *Protection of the Environment (General) Regulation 2012*.

Public consultation around updated PIRMP requirements took place earlier this year and there may be some modification to the PIRMP guidelines, please keep up to date with this on the EPA website.

During this inspection we noted one of your discharge points had been modified. We have varied the licence to reflect that modification.

If you have any questions or wish to discuss this matter further, please contact Angus Adair at the Armidale EPA office on (02) 6773 7000 or by email to [armidale@epa.nsw.gov.au](mailto:armidale@epa.nsw.gov.au)

## Information about this licence

### Dictionary

A definition of terms used in the licence can be found in the dictionary at the end of this licence.

### Responsibilities of licensee

Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 ("the Act") and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

### Variation of licence conditions

The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

### Duration of licence

This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

### Licence review

The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

### Fees and annual return to be sent to the EPA

For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).

# Environment Protection Licence

Licence - 10852

The EPA publication “A Guide to Licensing” contains information about how to calculate your licence fees. The licence requires that an Annual Return, comprising a Statement of Compliance and a summary of any monitoring required by the licence (including the recording of complaints), be submitted to the EPA. The Annual Return must be submitted within 60 days after the end of each reporting period. See condition R1 regarding the Annual Return reporting requirements.

Usually the licence fee period is the same as the reporting period.

## Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

## Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.
