## CONVERSION OF ENVIRONMENT PROTECTION LICENCE 10859

The Environment Protection Authority which administers Environment Protection Licences under the *Protection of the Environment Operations Act 1997* ("the POEO Act") recently updated the computer software used for the administration and issuing of Licences and associated Notices.

The new software produces a licence which appears slightly different to the previous version of the licence. While there are some minor changes to headings and formatting, there are no material changes to the licence and the intent of the licence remains the same.

NAMOI COTTON CO-OPERATIVE LTD ("the licensee") is the holder of Environment Protection Licence No. 10859 ("the licence") issued under the *Protection of the Environment Operations Act 1997* ("the Act"). The licence authorises the carrying out of scheduled activities at MERRYWINEBONE, ROWENA, NSW, 2387.

Attached is a Section 58 notice issued under the POEO Act for licence 10859 which incorporates the licence produced using the new software. An electronic copy of the licence can be downloaded from <http://www.environment.nsw.gov.au/prpoeoapp>.

Should you wish to discuss this matter please contact Ms Michelle Gibson on 6883 5330 or by email to [epa.farwest@epa.nsw.gov.au](mailto:epa.farwest@epa.nsw.gov.au).

Yours sincerely

## Information about this licence

### Dictionary

A definition of terms used in the licence can be found in the dictionary at the end of this licence.

### Responsibilities of licensee

Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 ("the Act") and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

### Variation of licence conditions

The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

### Duration of licence

This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

### Licence review

The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

### Fees and annual return to be sent to the EPA

For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).

# Environment Protection Licence

Licence - 10859

The EPA publication "A Guide to Licensing" contains information about how to calculate your licence fees. The Annual Return must be submitted within 60 days after the end of each reporting period. See condition R1 regarding the Annual Return reporting requirements.

Usually the licence fee period is the same as the reporting period.

## Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

## Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.
